Legend

- ★ Selected Facility
- EPA Facility of Interest
- State/Tribe Facility of Interest

The facility locations displayed come from the FRS Spatial Coordinates tables. They are the best representative location of the displayed facilities based on the accuracy of the collection method and quality assurance checks performed against the location. The North American Datum of 1983 is used to calculate all coordinates.

TRUMBULL LIQUID ASPHALT

11910 Northwest Saint Helens Road
PORTLAND, OR 97213

EPA has cleanup profiles for this location under the following cleanup programs. For additional information on these programs, please see below.

Background

A number of [cleanup programs](#) have evolved over the years to assess and, where necessary, clean up contaminated sites, facilities and properties. Cleanups may be done by EPA, other federal agencies, states or municipalities, companies or parties responsible for the contamination, or other organizations. They may be funded by various levels of government, private parties and other organizations. Cleanup requirements, including reporting requirements, vary by program and sometimes even within a program, and not all information is reported to or available to EPA. In some cases, a particularly piece of property is cleaned by more than one program.

The following profile(s) provide summary information that is available to EPA through mandatory and voluntary reporting under the Brownfields, RCRA Corrective Action, Superfund and Federal Facilities programs as well as links to sites that have been made available to the Agency. Over time, we anticipate more EPA cleanup programs will be covered and more links will be made to information on specific cleanups. We hope that providing this information through a single point of entry will make it easier for you to find information on cleanups of interest to you. We welcome your suggestions on where to link to additional information and how to make this service more useful to our citizens, realtors, businesses and related entities.
